

PHARMA PASSIVE
YOUR CARGO
ALWAYS UNDER CONTROL

latamcargo.com

For the **safe and effective** shipping of **pharmaceutical products**, we offer **Pharma Passive**, a service that minimizes the time cargo spends outside the temperature-controlled supply chain.

WE OFFER THREE TEMPERATURE RANGES:

PHARMA 2°C - 8°C	PHARMA 15°C - 25°C	PHARMA 2°C - 25°C
----------------------------	------------------------------	-----------------------------

TEMPERATURE RANGE MUST BE DECLARED IN THE **HANDLING INFORMATION** FIELD OF THE AWB.

KEY CONTROL POINTS

EVENT	TEMPERATURE RECORDING	TIME RECORDING
RECEPTION OF CARGO AT ORIGIN	●	●
REMOVAL OF CARGO FROM COOLER	●	●
LOADING OF CARGO INTO AIRCRAFT	●	●
ARRIVAL OF CARGO AT DESTINATION	●	●

PHARMA PASSIVE
SLA
FEATURES

Procedures in accordance with IATA's Chapter 17 guidelines.

A unique service **as unique as your shipments**

We offer Pharma Passive for **loose** and **containerized** cargo.

- Temperature range declared on AWB.
- Use of thermographs to monitor temperature.
- Use of thermal blankets to minimize temperature fluctuations.
- Segregation from perishable cargo.
- Tarmac time minimization.
- Aircraft pre-conditioning.
- Highest loading priority.
- Temperature controlled inside the aircraft.
- Proactive communication with customer in the event of an incident.
- Process improvement program.
- Personnel trained and certified in the handling of Pharma products.

Product coverage
